campus. Selections will be based on numerous factors including a completed application, the submission of all required materials, responses to short and long essay questions, and financial need as categorized by the Office of Student Financial Aid Services at UConn. The scholarship is renewable for a maximum of six (6) semesters in total, provided the recipient maintains full-time status and a minimum cumulative grade point average of 2.60.

Recipients who drop below a 2.60 grade point average, or who do not earn the minimum number of academic credits to be considered full-time during any given semester, may be given a one-time probationary period of one semester to meet the renewal requirements. Probation may not be granted for students whose grade point averages are below 2.0, or who have earned less than the minimum number of credits to be considered full-time for an entire academic year (e.g., a minimum of 12 credits per semester for undergraduate students). If this should occur, the student may contact the CTCIP Initiative directly to discuss the possibility of, and requirements for, reapplication.

It is recognized that IMRP's funding for scholarships is dependent upon continued funding from the Connecticut General Assembly for its CTCIP Initiative, as well as donations received to support scholarships. If there is a reduction in funding or other budgetary rescissions imposed or required, IMRP shall, with written notice to awardee(s), terminate or amend any agreement.

Scholarship Recipient Responsibilities

Scholarship recipients are expected to actively engage in the planning and execution of an IMRP-sponsored event with the CTCIP Initiative. This includes serving on the planning committee for a Parental Incarceration Awareness Month event, which is designed to create community and raise awareness about the experiences of children with incarcerated parents. Scholarship recipients must complete at least 20 hours of volunteer service per academic year.

Background on IMRP & CTCIP

The IMRP is dedicated to enriching the quality of local, state, and national public policy. With a practical approach, we bridge the divide between academia, policymakers, practitioners, and the community. Since fiscal year 2008, the IMRP has been receiving annual funding from the Connecticut General Assembly to administer competitive grants for providing positive interventions for youth whose parent(s) and/or family members have been incarcerated. The mission of the CTCIP Initiative is to improve the quality of support for children with incarcerated parents by using the various data and knowledge it gains to inform public policy and practice. More information regarding the Initiative can be found here: ctcip.org.
